# Chapter 2. Funcionalidades

## 2.1. Activitie

### 2.1.1. Scenario: Create Activitie and validate

tags: @test

#### Given

I make the post with the data id 22 and title "Activity 22", so validate the return status code is 200 🍪 (09s 391ms)

#### When

I do the GET to id of first step, so validate the title is "Activity 22" and the return status code is 200 🍪 (01s 342ms)

#### Then

to do the GET for all, so validate the return is 200 🍪 (01s 146ms)
